71. Term "Soft Drinks" Defined—License Required—Application; Examination; Fee, Inspection.—The term "soft drinks" as used in this act shall be held to mean and include any carbonated soda water, artificial or natural mineral water, and all other similar non-alcoholic carbonated or non-carbonated beverages.

No person, firm or corporation shall manufacture and bottle for sale within this State any such soft drink without a license issued by the Secretary of Agriculture of Ohio.

Such license shall be issued only on written application stating the location at which such manufacture is to be conducted, and the applicant shall furnish the Secretary of Agriculture with a sample of each such soft drink so proposed to be manufactured. Upon receipt of the application the Secretary of Agriculture shall cause an examination to be made into the sanitary conditions of such place of manufacture, and may also cause an analysis to be made of such samples, or any of them. If the buildings so to be used be found by the Secretary of Agriculture in a sanitary condition, and if the analysis of said samples show the same to be unadulterated and free from harmful drugs and other ingredients injurious to health, the Secretary of Agriculture, upon the payment of a license fee of fifty dollars ($50.00), shall cause a license to be issued authorizing the applicant to manufacture any such soft drinks as hereinafter provided. Said license shall run one year unless sooner revoked as herein provided, and shall be renewed annually thereafter upon the payment of the same fee and compliance with same conditions.

All such soft drinks and places of manufacture of same shall be subject to inspection as hereinafter provided. (G. C. 1926, § 1089-3.)

72. Soft Drinks From Outside the State, Subject to Inspection; Registration; Fee.—No such bottled soft drink that is manufactured out of the State of Ohio shall be sold or offered for sale within this State unless the same is first inspected and analyzed and approved as above by the Secretary of Agriculture, and registered by him, which shall be upon a like application as above provided, and a fee of fifty dollars ($50.00) shall be paid therefor. Like samples for such inspection and analysis shall be furnished as above provided. Such registration shall be renewed annually upon the same terms and conditions and subsequent inspections and analysis may be made by the Secretary of Agriculture at any time in his discretion for the purpose of ascertaining whether or not the standard and quality of such soft drinks is being maintained. (Id. § 1089-4.)

73. Retailer Must Register All Soft Drinks in Possession; License Fee.—No person, firm or corporation shall sell or offer for sale, or have in his possession with intent to sell, any soda water syrup or extract, or soft drink syrup, to be used in making, drawing or dispensing soda water or other soft drinks, without first registering his name and address and the name and address of the manufacturer thereof, and the number and variety of such syrups or extracts so intended to be sold, the trade name or brand thereof, if any be adopted, with the Secretary of Agriculture, together with such samples of the same as the Secretary of Agriculture may from time to time request for the purpose of analysis. He shall also pay into the State treasury at the time of making such registration a license fee of five dollars ($5.00) and said license shall not be granted by the Secretary of Agriculture unless he determine that said syrup or extract is free from all harmful drugs and other ingredients injurious to health. Said registration shall be renewed annually upon like terms; provided that whenever any manufacturer, agent or seller shall have paid his fee, his agent or seller using the same shall not be required to do so.

The provisions of this section shall not apply to local sellers of soft drinks as to such syrups and extracts made by themselves for their own use exclusively.

The Secretary of Agriculture may revoke such license temporarily until there is a compliance with such conditions as he may prescribe, or permanently for the unexpired term of such license. (Id. § 1089-6.)

75. Notice of Revocation; Hearing.—Before revoking any license the Secretary of Agriculture shall give written notice to the licensee affected, stating that he contemplates the revocation of the same and giving his reasons therefor. Said notice shall appoint a time of hearing, before said secretary and may be sent by registered mail to the licensee. On the day of hearing, the licensee may present such evidence to the secretary as he deems fit, and after hearing all testimony, the secretary shall decide the question in such manner as to him appears just and right. (Id. § 1089-7.)

76. Appeal to Common Pleas Court.—Any such person whose license has been revoked or registration cancelled, as above provided, who feels aggrieved at the decision of the Secretary of Agriculture, may appeal from said decision within ten days to the Common Pleas Court of Franklin county, or of the county in which such manufactory or the principal place of business of such seller of syrups and extracts is located, and issue shall be made up in said court upon said appeal, and the same shall be tried and disposed of therein. And provided further that, whenever artificial coal tar colors are used, nothing but the certified colors as approved by the Federal government are permissible. The provisions of this section shall not apply to retailers who do not bottle soft drinks, except as to saccharin; and all bottled soft drinks not in compliance with the standards established by this act shall be deemed to be adulterated. All adulterations of any of the drinks, extracts or other article mentioned in this act shall be unlawful. (Id. § 1089-9.)

78. When Soft Drinks Shall be Labeled "Artificially Colored and Flavored," Etc.—Whenever artificial colors and artificial flavors are used in the manufacture of soft drinks to imitate a natural product, the bottle or other container shall be distinctly labeled "Artificially Colored and Flavored" by a printed label upon the side thereof, or said words may be upon the metal crown or cap thereon. All other non-alcoholic ciders, fruitades, fruit juices or other similar drinks that are made in imitation of the natural products shall be properly and distinctly labeled in the manner above provided with the word "imitation" followed by the name of the beverage. All natural waters which have anything added to them or abstracted from them shall be labeled in the same manner with either of said words, and the manner in which the same has been so altered shall be clearly stated on the label.

Waters made in imitation of any natural spring water or mineral water, and bearing the name of such spring water or mineral water, as provided above, shall contain the same chemical ingredients and composition as the natural water after which they are so named.

All mineral waters whether of natural or artificial origin sold or offered for sale must be of good quality when judged by the results of the sanitary chemical

analysis, special significance being attributed to the presence of nitrite, to free ammonia in excess of 0.05 miligram per liter, and to an undue amount of organic matter, if not so found, they shall be deemed to be adulterated. (Id. § 1089-11.)

The fees and mileage of the sheriff and witnesses shall be the same as that allowed in the Common Pleas Court in criminal cases. Fees and mileage shall be paid from the fund in the State treasury for the use of the board in the same manner as other expenses of the said board are paid. ---

*This is the only reference to drugs in the law here stated. Otherwise it relates to foods. For the general drug law, see also Nos. 31 and 253 et seq. Note Hoefler v. Mickle, 78 Ore. 399, 153 Pac. 417 (1915).

Second—If it be an imitation, or offered for sale under a distinctive name of another article.

No geographical name shall be used in connection with a food product not manufactured or produced in that place, when such name indicates that the article was manufactured or produced in that place; provided, that the use of the geographical name in connection with a food product shall not be deemed a misbranding when by reason of long usage such name has come to represent a generic term, and is used to indicate a style, type or brand, but in all such cases the State, territory or country where any such article was manufactured or produced shall be stated upon the label. The size of the type shall not be smaller than eight point capitals; provided, that in case the size of the package will not permit the use of said type the size of the type may be reduced proportionately.

(2) In case of articles labeled, branded or tagged so as to plainly indicate that they are compounds, imitations or blends, and the word "compound," "imitation" or "blend" as the case may be, is plainly stated on the package in which it is offered for sale; provided, that the blend as used therein shall be construed to mean a mixture of like substances, not excluding harmless coloring or flavoring ingredients used for the purpose of coloring and flavoring only; and, provided further, that nothing in this act shall be construed as requiring or compelling proprietors or manufacturers of proprietary foods which contain no unwholesome and added ingredients, to disclose their trade formulas, except in so far as the provisions of this act may require to secure freedom from adulteration or misbranding. (Id. § 8687.)

26. False Branding or Removing of Label Illegal.—Whoever shall falsely brand, mark, stencil or label any article required by this act to be branded, stenciled or labeled, or shall remove, alter, deface, mutilate, obliterate, imitate or counterfeit any brand, mark, stencil, or label so required, shall be deemed guilty of a violation of this act. Said guaranty, to afford such protection, shall contain the name and address of the party or parties making the sale of such articles to such dealer and in such case said party or parties making the sale of such article shall be amenable to the prosecution, fines, or other penalties which would attach in due course to the dealer under the provisions of this act. (Id. § 8753.)

the contract is based, unless the test weight be below fifty-five and at a rate not to exceed 1.6 per cent of the price at country point for each pound test below fifty-five down to and including wheat having a test weight of fifty-one pounds per measured bushel.

The discount on mixed wheat may not exceed 2 per cent below the purchase price paid at country point for the same grade of the class of wheat which predominates in the mixture.

(Id. § 6802.)

352i. Reasonable Attorney's Fee in Actions for Infringement.—In case the plaintiff is successful in maintaining his action either for damages or for permanent relief by injunction, or for nominal damages only, he shall be entitled to recover a reasonable attorney's fee, to be taxed by the court as a part of the costs, and merged in the judgment. 353. "Trade-Mark" Defined.—A "trade-mark" is a mark used to indicate the maker, owner or seller of an article of merchandise and includes, among other things, any name of a person, partnership, firm or private corporation, or any letter, word, device, emblem, figure, seal, stamp, brand, wrapper, ticket, stopper, label or other mark, lawfully adopted by him and usually affixed to any article of merchandise to denote that the same was imported, manufactured, produced, sold, compounded, bottled, packed or otherwise prepared by him; and also a signature or mark, used or commonly placed by a painter, sculptor or other artist upon a painting, drawing, engraving, statue or other work of art to indicate that the same was designed or executed by him. (Id. § 8070.)

355. "Article of Merchandise" Defined.—The expression "article of merchandise" as used in this act signifies any goods, wares, works of art, commodity, compound, mixture or other preparation or thing, which may be lawfully kept or offered for sale. (Id. § 8071.)

356. "Imitation of Trade-Mark" Defined.—An "imitation of trade-mark" is that which so far resembles a genuine trade-mark as to be likely to induce the belief that it is genuine, whether by use of words or letter, similar in appearance or in sound, or by any sign, device or other means whatsoever. (Id. § 8072.)

357. Application for Trade-Mark.—Any person, partnership, firm, or private corporation desiring to secure within the State of Oregon the exclusive use of any trade-mark for any article of merchandise, shall make application to the Secretary of State upon a blank furnished for that purpose for the registration of such trade-mark, which application shall be accompanied by particular description or a facsimile of such trade-mark as he may desire to use, and the description of the article or articles of merchandise to which such trade-mark is to be applied: (Id. § 8073.)

358. Similar Trade-Marks Not Allowed.—If there be not already a claim or application filed with the Secretary of State for the same, or a similar trade-mark, or a trade-mark so closely resembling the one applied for as to cause confusion, he shall immediately file such application and record the same in a book, to be especially provided and kept by him for such purpose, which book shall be at all times subject to public inspection and examination. If there be already filed the same or any similar trade-mark, or a trade-mark so closely resembling same as to be likely to cause confusion or be misleading, the secretary shall so inform the applicant and shall not file or record the same; provided, that no trade-mark shall be granted for a word or generic term which, by general or common use, is descriptive of or characterizes a particular article to which it pertains rather than its origin or proprietorship. (Id. § 8074.)

359. Fee for Filing Trade-Mark.—Upon filing a trade-mark by the Secretary of State, the owner or person offering same for filing shall pay a fee of five

dollars for filing and recording same. And no trade-mark shall be filed until such fee be paid. (Id. § 8075.)

360. Notice of Filing Trade-Mark.—Upon the filing of a trade-mark by the Secretary of State, the owner thereof shall cause to be published in some newspaper published in the county in which the principal office or place of business of such owner is located, once a week for three successive weeks, a notice setting forth the description of such trade-mark, and article or articles of merchandise to which it is to be applied, together with the name of the person, partnership, firm or private corporation owning same; after such registration and publication of notice as hereinbefore provided, the person, partnership, firm or private corporation shall thereupon be deemed the proprietor of such trade-mark and exclusive owner thereof. (Id. § 8076.)

361. Corporation Name Cannot be Used as Trade-Mark.—No person, partnership, firm or private corporation can file or use as the trade-mark the name of any foreign or domestic corporation of record under the laws of the State of Oregon at the time of making such application for trade-mark, and the Secretary of State if in his opinion any trade-mark offered for filing and record shall so closely resemble the name of a foreign or domestic corporation of record under the laws of the State of Oregon as to be likely to cause confusion, shall so inform the applicant and shall not file same. (Id. § 8077.)

362. Infringement of Trade-Mark.—Any person, partnership, firm or private corporation that shall use or cause to be used any trade-mark owned by another, or use words or letters similar in appearance or in sound, or by any sign, device or other means whatsoever imitate such trade-mark without the owner's consent, or shall have in his possession a counterfeit trade-mark, knowing it to be a counterfeit, or die, plate, brand or anything for the purpose of falsely making or imitating a trade-mark without the owner's consent, or shall knowingly sell or expose for sale any article of merchandise to which such false or imitation trade-mark is attached, without the consent of the owner of such trade-mark, shall be guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not less than fifty dollars or more than one hundred dollars, or imprisonment in the county jail for not less than twenty days, nor more than fifty days, or both such fine and imprisonment. (Id. § 8078.)

363. Forfeiture of Property Bearing Infringement Trade-Mark.—Any person, partnership, firm or private corporation that shall use or cause to be used any name, brand, mark or description, whether by the use of words or letters similar in appearance or sound, or by any sign, device or other means whatsoever imitate a trade-mark filed and recorded, upon any article of merchandise for the purpose of deception or profit, shall forfeit to the use of the owner of the said trade-mark so taken or substituted the property or article upon which the same is placed or used, or the value thereof to be recovered by said owner in any court having jurisdiction of the subject-matter. (Id. § 8079.)

364. Provisions as to Certificate Filing Trade-Mark.—The Secretary of State shall upon filing trade-mark as hereinbefore provided, deliver to the person, partnership, firm or private corporation so filing the same a certificate, under the seal of the State, of the record of such trade-mark, and article or articles of merchandise to which it is applied. Such certificate granted by the Secretary of State under this act, and proof of publication as hereinbefore provided, shall be prima facie evidence of the ownership of any such trade-mark therein described by the person, partnership, firm or private corporation therein named in any prosecution or action under any of the statutes of this State, where proof of such ownership and use is necessary, and any action or proceeding brought for the purpose of recovering damages for the violation of said trade-mark, or of preventing infringement thereof. This statute, however, shall not be construed as preventing the proof of any such trade-mark, and the use thereof in any other lawful manner in use prior to the passage of this act. The Secretary of State shall not record, register or file any trade-mark so similar to any other trade-mark heretofore filed or registered as would be calculated to deceive, unless it should be proven to his satisfaction that the person, partnership, firm or private corporation last applying for the registration of such trade-mark shall be entitled thereto and the rightful owner thereof by prior adoption, in which case the date of the adoption shall determine the ownership and shall be proven by affidavits of persons conversant with such dates. In case the Secretary of State becomes satisfied after hearing the said affidavits that the person, partnership, firm or private corporation last applying for registry is entitled by priority of adoption to register such trade-mark, he shall revoke the first registry and reregister the same in the name of the person last applying therefor. Any court of competent jurisdiction may also in

an action brought for that purpose by any person aggrieved thereby against any person, partnership, firm or private corporation, who has already filed or registered any such trade-mark, direct the revocation of any such registration, where it shall determine that the person who has already registered the same is not the rightful owner of such trade-mark. (Id. § 8080.)

365. Trade-Marks Heretofore Filed.—Any person, partnership, firm, or private corporation that has heretofore filed under the provisions of law existing at the time of such filing shall not be required to again file and publish such description, to be entitled to the benefits of this act. (Id. § 8081.)

366. Right to Enjoin Infringement Continues.—Nothing in this act shall be construed so as to affect the power of courts of equity to perpetually restrain by injunction the improper use of any trade-mark, which may have been secured by the provisions of this act or other provisions of law. (Id. § 8082.)

366a. Counterfeiting Serial Number.—If any person shall counterfeit, obliterate, remove or change the serial number impressed upon or attached to any manufactured article with the intent to defraud the purchaser of any such article, shall knowingly sell or offer for sale any such article after the serial number thereon has been counterfeited, obliterated, removed or changed, without disclosing such counterfeit, obliteration, removal or change to the purchaser, such person, firm or corporation shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not less than $20 nor more than $100, or by imprisonment in the county jail not less than one month nor more than six months, or by both such fine and imprisonment, in the discretion of the court. State Standards.—The standards in possession of the State Sealer of Weights and Measures obtained through and passed upon by the National Bureau of Standards of the United States, shall be at least once in ten (10) years tested by the National Bureau of Standards, and such standards shall be known and recognized as the State standards of Oregon. 382. Redistricting.—The State Sealer may, at any time when in his best judgment he deems it advisable for the more efficient or economical administration of the law, change or re-arrange the counties comprising the districts; provided, that such change or re-arrangement will require not more than four districts, as heretofore mentioned. (Id. § 8095.)

(Id. § 8098.)

386. (Id. § 8099.)

387. (Id. § 8100.)

(Id. § 8102.)

(Id. § 8104.)

392. Incorrect Weights or Measures to be Condemned for Repairs.—Such weights or measures as are incorrect and yet may be repaired shall be marked or tagged as "condemned for repairs," and the owners or users shall have the same repaired within such time as the deputy State sealer or the district sealer may require, and any weight or measure or weighing or measuring device that has not been repaired within the required time may be confiscated and such weight or measure as is, in their best judgment, not susceptible to satisfactory adjustment or repair may be taken into their possession, and shall be held for a period of thirty days next ensuing, at the expiration of which time if no action at law or suit in equity has been brought for the recovery of the same it may be destroyed. (Id. § 8105.)

(Id. § 8107.)

395. District Attorney to Represent State.—It shall be the duty of the District Attorney in each district to represent the State in any procedure for the violation of the State law brought under this act. (Id. § 8108.)

396. Act Does Not Prevent Cities from Enforcing Ordinances Relating to Weights and Measures—Standards, Specifications, Etc., to be Same.—None of the provisions of this act shall be construed as in any way limiting the right of any city regularly incorporated within the State from enforcing any ordinance or ordinances which it may have heretofore or may hereafter enact relating to weights and measures; provided, however, that such ordinance shall not establish standards of weight or measure in relation to the sale of commodities other than such as will conform to those adopted by the State; and be it further provided, that such specifications, tolerances and regulations appertaining to the testing, sealing, condemning or confiscation of weights, measures or weighing or measuring

devices established or adopted by the State shall be followed by such city in making inspections and tests. (Id. § 8109.)

397. Authority of State Sealer and Deputy State Sealer in Cities.—The State Sealer and the Deputy State Sealer of Weights and Measures shall have such authority as is authorized and conferred upon them within the limits of such city, and the State Sealer is hereby authorized, at his discretion, to appoint as special sealers the person or persons who may, for the time being, hold the position of the city sealer or deputy city sealer, within such city, to enforce the provisions of this act, within the limits of such city, and such person or persons so appointed shall receive no additional compensation therefor. (Id. § 8110.)

(Id. § 8111.)

399. Standards of Weights and Measures.—The weights and measures, together with the scales and beams, and those made in conformity therewith, which are now or may hereafter be deposited in the treasury of this State, shall be preserved by the treasurer and be the public standards in this State. (Id. § 8112.)

400. Unlawful to Use Dry Capacity Measure—Dry Capacity Measure Defined.—From and after the passage and adoption of this act it shall be unlawful to use or employ any dry capacity measure as a means to determine the amounts or quantities of commodities offered or exposed for sale or sold.

(Id. § 8118.)

404. Unlawful to Sell Less Than Quantity Represented, Etc.—It shall be unlawful for any person or persons to offer or expose for sale or sell less than the quantity represented, or who, as the buyer, furnished the weight or measure by means of which the amount of the commodity is determined, to take more than the quantity represented or to sell any commodity in a manner contrary to law. 407. Including the Weight of Other Commodity—Penalty.—It shall be unlawful, in selling any commodity by weight or measure, to include the weight or measure of anything other than the weight or measure of such commodity so sold; provided, however, that this shall not be so construed as to interfere with the right of contract as between parties. It shall be unlawful for any person, firm or corporation to use any false weight or measure, or to sell any commodity at a greater weight or measure than its true weight or measure, or where the buyer is the weigher or measurer, to take any greater weight or measure than the true weight or measure. (Id. § 8122.)

408. Second. If it be labeled or branded so that it may deceive or mislead the purchaser; or purport to be a foreign product, when not so; or if the contents of the package as originally put up shall have been removed, in whole or in part, and other inferior contents shall have been placed in such package.

Third. If the package containing it, or its label, shall bear any statement, design, or device, regarding the substances or ingredients contained therein, which statement, design, or device shall be false or misleading in any particular.

Fourth. If it be a mixture or compound which may be known, or from time to time hereafter known, as an article of food, unless it be accompanied on the label or brand with a statement that it is a mixture or compound and a statement of the substance entering into said mixture or compound. All labeling of packages required by this act shall be on the main label of each package, and in type not less than eight point, brevier caps, in size,—unless the size of the package will not permit the use of eight-point cap type, in which case the size of the type may be reduced proportionately,—and in such position and terms as may be plainly seen and read by the purchaser: Provided, that nothing in this act shall be construed as requiring or compelling the proprietors, manufacturers, or sellers of proprietary foods to disclose their trade formulas, except in so far as may be necessary under the provisions of this act to avoid adulteration, imitation, or misbranding. (Pa. St. 1920, § 62.)

5. Prosecutions; Guaranty to Retail Dealer; Improper Storing, Etc.—When the Dairy and Food Commissioner, or his agent, shall obtain an article of food, or sample or portion thereof, from any person, for the purpose of determining whether the same is adulterated or misbranded within the meaning of this act, and it shall be found that the said article of food is adulterated or misbranded within the meaning of this act, then the Dairy and Food Commissioner shall proceed against the said person, from whose store, warehouse, or other place of business said article, sample, or portion thereof, shall have been obtained, for a violation of the provisions of this act.

But no prosecution shall be sustained, under the provisions of this act, against a retail dealer for the selling, offering for sale, exposing for sale, or having in possession with intent to sell, of any adulterated or misbranded article of food, as defined herein, if the retail dealer from whom the said article of food, sample, or portion thereof, was obtained by the Dairy and Food Commissioner or his agent, can establish a guaranty, signed by the manufacturer or wholesale dealer, or jobber or distributor, residing in the United States, from whom such article of food was purchased or procured, to the effect that the same is not adulterated or misbranded within the meaning of his act designating it.

Said guaranty to afford protection shall contain the name and address of the manufacturer or wholesale dealer, or jobber or distributor, making the sale of such articles of food to such retailer, and in such case the said manufacturer or wholesale dealer, or jobber or distributor, so as aforesaid giving such guaranty, shall be amenable to the prosecution, fines and other penalties which would attach, in due course, to the retailer holding such guaranty under the provisions of this act, for a violation hereof; and every manufacturer or wholesale dealer, or jobber or distributor, giving a guaranty under the provisions of this act shall be held responsible, and shall be proceeded against for the adulteration or misbranding of any article of food sold under said guaranty, and shall be subject to the penalties for the violation of the provisions of this act. No such guaranty shall operate as a defense to a prosecution for a violation of the provisions of this act, if the retailer holding such guaranty shall continue to sell the same article of food after written or printed notice from the

Dairy and Food Commissioner, or his agent, that such article is adulterated or misbranded within the meaning of this act.

But if said person shall violate the provisions of paragraph six, section three [61] of this act, by having stored or transported or kept said article, in said paragraph mentioned, in a way or manner to render it diseased, contaminated, or unwholesome, said person shall be proceeded against for a violation of the provisions of this act; and it shall not be necessary for conviction that any article, sample, or portion thereof, shall be obtained by the Dairy and Food Commissioner, or his agent, as a condition precedent to prosecution. (Id. § 63.)

6. What Deemed Same Article.—For the purpose of this act, an article shall be deemed to be the same article,—

First. When it shall be of the same brand, or have thereon the same label, and shall be adulterated or misbranded in the same way.

Second. When it is not labeled or branded, but is sold, offered for sale, or exposed for sale, under the same name, and adulterated or misbranded in the same way.

Third. When, although sold, offered for sale, or exposed for sale under another name, or labeled or branded in a different way, it shall be found to be the product of the same manufacturer, grower, or maker, and to be adulterated or misbranded in the same way: Provided, however, that an article shall be deemed to be adulterated in the same way if it shall contain the same adulterant substance or substances. (Id. § 64.)

7. Punishment.—Any person who shall violate any of the provisions of this act shall be guilty of a misdemeanor, and, upon conviction thereof, shall be sentenced to pay a fine of not less than sixty dollars nor more than one hundred dollars. (Id. § 65.)

8. Duties of Dairy and Food Commissioner.—The Dairy and Food Commissioner of the State shall be charged with enforcement of the provisions of this act and shall make rules and regulations for the proper enforcement thereof, and shall cause such rules and regulations to be published in the official bulletin in the issue immediately following the preparation of the same. (Id. § 66.)

9. Disposition of Fines and Penalties.—All fines and penalties imposed and recovered for the violation of any of the provisions of this act shall be paid to the Dairy and Food Commissioner or his agent, and by the Dairy and Food Commissioner be paid into the State treasury, for the use of the Commonwealth. (Id. § 67.)

Any person who intentionally prevents, or knowingly refuses, to permit any authorized person to enter any place where drugs are compounded, dispensed, or sold, for the purpose of purchasing samples, or refuses to sell a sample or samples of drugs for the purpose of examination, shall, upon conviction, be sentenced to pay a fine of ten dollars ($10.00) and costs of prosecution: Provided, however, that this section shall not be construed as granting any right or privilege to said board, or the agents thereof, of inspecting any place where drugs are sold or manufactured, or any formula or process of manufacture of any drug. to falsify the record thereof, or to make the "Babcock" reading except when the fat has a temperature of one hundred thirty degrees to one hundred forty-five degrees Fahrenheit, or to use for such test quantities other than seventeen and six-tenths (17.6) cubic centimeters in the case of milk, and nine (9) grams or eighteen (18) grams in the case of cream. In all tests of cream, the cream shall be weighed and not measured into the test bottle. (Pa. St. 1920, § 15042.)

207. Testing Utensils.—No person, association, copartnership, or corporation, purchasing milk or cream, and paying for the same, on the basis of the percentage of butter fat contained therein, shall, if the percentage of butter fat is ascertained by the said "Babcock test," use any test glassware except standard Babcock test glassware which has been previously inspected and approved by the Bureau of Standards. If the proportion of butter fat is determined by any method other than the "Babcock test," no utensil or instrument shall be used in such determination until the same has been inspected and approved by the Secretary of Agriculture. For the purpose of this act, a "certified tester" is any person who, having furnished satisfactory evidence of good character, and having passed a satisfactory examination in milk and cream testing conducted by the Dairy Husbandry Department of the Pennsylvania State College, shall have received a certificate of proficiency from the said department. Each applicant for such certificate shall pay a fee of three dollars ($3.00) to said department, in such manner as its regulations may prescribe, to defray the cost of the required examination and of the certificate. The said department shall issue such certificate of proficiency in the name of the approved applicant and under serial number, and shall maintain a correspondingly numbered register of all such certificates issued under this act. This certificate shall be forwarded by the said department to the Secretary of Agriculture, who shall issue a license to said applicant, good for one calendar year, on the payment of a fee of two dollars ($2.00) to the Secretary of Agriculture. This license shall be renewed annually, without further examination, at the discretion of the Secretary of Agriculture, upon the payment of two dollars. All moneys so collected shall be used to meet the expenses of the Department of Agriculture. Each certified tester shall post his license in plain view in the testing room in which he is employed. The milk or cream purchased from each person shall be represented by a composite sample, taken from each of the several lots of milk or cream bought from said person, and shall cover a period of not more than sixteen days. The composite samples, to which a suitable preservative has been added, shall be made up of aliquot parts taken from each of the several lots of milk or cream bought from each person concerned, and composite samples of all persons concerned shall cover the same period of time. Each composite sample shall be plainly labeled with the name of the person whose milk or cream the composite sample represents, and with the date of the first and last day of the period of time covered by the said composite sample. After such samples have been tested, their residues shall be kept intact on the premises for a further period of not less than ten days, in order to make possible a check test. The Secretary of Agriculture is hereby authorized to make check tests whenever in his judgment such tests are for the public welfare. (Id. § 15045.)

210. Treated Samples; Time for Making Tests of Composite Samples.—No percentage of fat ascertained from a sample, containing milk or cream, that has been so treated as to cause it to test lower or higher than the test of the milk or cream from which it was taken, shall be used as a basis of payment for milk or cream purchased or sold. No composite sample shall be tested for use as a basis

for payment of milk, which has been kept more than fifteen days after such composite sample has been completely taken. (Id. § 15046.)

211. Fraudulent Weighing.—No person, association, copartnership, or corporation, purchasing or selling milk or cream, or both, by weight, and no agent or servant of any such person, association, copartnership, or corporation, shall fraudulently use, as the basis of payment for such purchase, any weight other than the true weight of the milk or cream so purchased or sold. (Id. § 15047.)

It shall be unlawful for any person, persons, firm or company, association, corporation, or any agents, to use any other than standard test bottles, pipettes, and weights, which have been examined and marked as provided in this section, to determine the amount of fat in milk or cream bought on the butter fat basis as determined by the Babcock test. The Secretary of Agriculture may require that the composite samples be tested on the premises where they are taken whenever in his judgment such action is for the public welfare. After such samples have been tested their residues shall be held intact and in condition suitable to test on the premises where they are tested for further period of not less than ten days in order to make possible a check test. The Secretary of Agriculture, or his agents, is hereby authorized to make such tests whenever in his judgment such tests are advisable for the public welfare. Every

person, firm, or corporation affected by the provisions of this act shall, within two days after the day on which the test herein provided for has been made, notify the seller of such milk or cream or his agent of the result of such test, stating the period of time during which said composite samples were taken. Two members of the board shall constitute a quorum. The board shall select, from among its members, a chairman and may elect a secretary who need not be a member of the board, and said board shall exercise the powers and perform the duties hereafter in this act set forth.

The board shall from time to time appoint and fix the compensation of such clerks, stenographers, inspectors and other assistants or employees as may be required for the proper conduct of the work of the board. 3. The period of time the applicant has been carrying on the business for which the permit is desired.

4. 7. Such other relevant information as the board shall from time to time require by rule or regulation.

This petition must be verified by affidavit of the applicant, made before any officer legally qualified to administer oaths, and, if any false statement is willfully made in any part of said petition, the applicant or applicants shall be deemed guilty of the crime of perjury, and, upon indictment and conviction, shall be subject to its penalties. (Id. § 7.)

516. Issuance of Permit—Condition of Bond.—Upon the filing of the application in the form herein provided, and upon execution of a bond to the Commonwealth, and a warrant of attorney to confess judgment in the penal sum of ten thousand dollars ($10,000), with surety to be approved by the board, which bond shall be conditioned for the faithful observance of all the laws of this Commonwealth relating to the manufacture, sale, offering for sale, bartering, furnishing, transporting, possessing, delivering within, or importing into, or exporting out of, this Commonwealth, of intoxicating liquors, and the conditions of the permit, the board may grant to such applicant a permit to engage in the manufacturing, pro-

(Id. § 9.)

518. Specifications of Permit—Violation of Specifications.—Every permit issued under the provisions of this act for the manufacture, production, distillation, development, denaturization, redistillation, recovery, reuse, holding in bond, holding in storage, of any alcohol or alcoholic liquid, shall specify the maximum quantity of such alcohol or alcoholic liquid per month, which may lawfully be manufactured, produced, distilled, developed, denaturized, redistilled, reused, held in bond, or stored, under such permit. Any permit issued for the use of any alcohol or alcoholic liquid in the process of manufacture, shall specify the purpose or purposes for which such alcohol or alcoholic liquid is to be used, and the maximum quantity per month which may lawfully be used under such permit. Every permit shall specify, by definite location, every place to be occupied or used in connection with the business to be conducted thereunder. It shall be unlawful for the holder of any permit to manufacture, produce, distill, develop, denaturize, redistill, recover, reuse, hold in bond, hold in storage, or use, a greater quantity of any alcohol or alcoholic liquid in any month than that specified in his permit, or to use any alcohol or alcoholic liquid for any purpose other than that specified in his permit, or to occupy or use any place in connection with any business authorized under a permit other than the place or places designated therein. (Id. § 10.)

519. Permittee to Keep Records.—Every person holding a permit, issued under the provisions of this act, shall keep daily, permanent records, which shall show (a) the quantities of any alcohol or alcoholic liquid manufactured, produced, distilled, developed, denatured, redistilled, recovered, reused, stored in bond, stored as bailee for hire, received or used in the process of manufacture, by him, and of all other material used in manufacturing or developing any alcohol or alcoholic liquid; (b) the sales or other disposition of any alcohol or alcoholic liquid; (c) the quantities thereof, if any, stored in bond, stored for hire, or transported for hire, by or for the permittee; and (d) the names and addresses of the purchasers or other recipients thereof: Provided, however, that persons holding permits, issued under the provisions of this act, for the transportation for hire of any alcohol or alcoholic liquid, shall not be required to keep the above records, but shall keep daily, permanent records showing the names and addresses of the persons from whom any alcohol or alcoholic liquid was received and to whom delivered. (Id. § 11.)

520. Inspection by Board.—Every place, operated under permit secured hereunder, where any alcohol or alcoholic liquid is manufactured, produced, distilled, developed, or used in the process of manufacture, denatured, redistilled, recovered, reused, held in bond, stored for hire, or in connection with a permittee's business, or sold at wholesale, shall be subject to inspection by the members of the board, or by persons duly authorized and designated by the board, at any and all times of the day or night as they may deem necessary, (a) for the detection of violations of this act, or of the rules and regulations of the board promulgated under the authority of this act, or of the act to which this is a supplement, or (b) for the purpose of ascertaining the correctness of the records required by this act to be kept by permittees, and the books and records of permittees, and the books and records of their customers, insofar as they relate to purchases from said permittees, shall at all times be open to inspection by the members of the board, or by persons duly authorized and designated by the board for the purpose of making inspections as authorized by this section. Members of the board, and the persons duly authorized and designated by the board,

shall have the right, without fee or hindrance, to enter any place, which is subject to inspection hereunder, or any place, where records subject to inspection hereunder, are kept, for the purpose of making such inspections. (Id. § 12.)

521. Permittee May be Cited for Violations—Revocation of Permit.—Upon learning of any violation of this act, or of any rule or regulation promulgated by the board under the authority of this act, or of any provision of the act to which this is a supplement, by the holder of a permit, issued under the provisions of this act, the board shall cite such permittee to appear before it, not less than ten (10) nor more than fifteen (15) days from the date of sending such permittee, by registered mail, a notice to show cause why the permit should not be revoked. And, upon such hearing, if satisfied that any such violation has occurred, the board shall immediately revoke such permit, notifying the permittee thereof by registered letter.

Any permittee, aggrieved by any decision of the board, may file, within thirty days thereafter, in the Court of Common Pleas of the county in which the permittee is resident, a petition, against the board as defendant, alleging therein the action and decision complained of and praying for a reversal thereof. Upon personal service of a summons on any member of the board, returnable within three days of the date thereof, the board shall, within one week from such return date, file an answer, in which it shall allege by way of defense the grounds for its decision and such other grounds as shall in the meantime accrue or be discovered. All allegations of the answer shall be deemed to stand denied without further pleading and, upon application of either party, the cause shall be advanced and heard without delay. Mere technical irregularities in the procedure of the board shall be disregarded. A judgment, sustaining the revocation of a permit by the board, shall not bar, after one year, a new application by the plaintiff for a permit, nor shall a judgment in favor of the plaintiff, prevent the board from thereafter revoking or refusing a permit, for any proper cause which may thereafter accrue or be discovered. The court shall have full power to dispose of all costs. From the judgments of the Court of Common Pleas, appeals may be taken, as in other actions at law, but, during the pendency of any such appeal in which a former permittee is appellant, such former permittee shall not carry on any business of the kinds regulated by this act. (Id. § 13.)

522. Expiration and Renewal of Permits.—All permits shall expire at the close of the calendar year, but new permits for the succeeding year shall be issued upon written application therefor, duly verified by affidavit, stating that the facts in the original petition are unchanged, and upon payment of the fee as hereinafter provided, without the filing of further statements, or the furnishing of any further information, unless specifically requested by the board: Provided, however, that a permit issued to a corporation under the provisions of this act shall expire thirty (30) days after any change in the officers of such corporation, unless the name and address of the new officer, or the names and addresses of the new officers, of such corporation shall within that period, be reported to the board by certificate duly verified. Applications for renewals must be made not less than thirty (30) nor more than sixty (60) days before the first day of January of the ensuing year. All applications for renewal received otherwise shall be treated as original applications. (Id. § 14.)

523. Permits for Existing Business.—All persons now carrying on any business requiring a permit under the provisions of this act, must apply for the same within sixty (60) days after its passage, and any such business may continue if a permit has been so applied for, until it is granted or refused. The fee for every permit issued under the provisions of this act shall be one hundred dollars ($100.00). All fees shall be paid to the board, which shall deposit the same in the State treasury, where they shall be kept apart from all other funds in the State treasury in a separate fund to be known as the "Permit Fund." The moneys from time to time in the said fund are hereby specifically appropriated to the board for the payment of any and all expenses of every kind and description which may be necessary for the proper administration and enforcement of this act. Moneys shall be paid out of the said fund, by warrant of the Auditor-General upon the State Treasurer, after requisition by the Secretary of Welfare. (Id. § 15.)

524. Issuance of Permits.—Permits shall be issued by the board under the official seal of the Department of Welfare. Every permit so issued must at all times be posted, in a conspicuous place, where the business is carried on under it, and said place of business must be kept open during general business hours of every day in the year except Sundays and legal holidays. No permit shall be issued hereunder to any person unless (a) in case of individuals, he or she is a citizen of the United States of America; (b) in case of companies or unincorporated associations of individuals, each and every one is a citizen of the United States of America; (c) in case of corporations, each and every stockholder thereof is a citizen of the United States of America; or to any person who has been convicted of a violation of this act, or of any law or regulation of the United States of America, or of

the Commonwealth of Pennsylvania, for the control of traffic in any alcoholic liquor. (Id. § 16.)

525. **Rules and Regulations.**—The board shall have the power to make and promulgate appropriate rules and regulations for carrying into effect the provisions of this act; Provided, that, as far as practicable, the rules and regulations of the board shall conform to the rules and regulations promulgated by the appropriate agency of the government of the United States for carrying into effect the provisions of any act or acts of Congress regulating the manufacture, development, storage, sale, or transportation of any alcohol or alcoholic liquid or intoxicating liquor. (Id. § 17.)

526. **Place of Violation Declared to be a nuisance—Suspension of Permit—Abatement.**—Any place within this Commonwealth in which any alcohol or alcoholic liquid is manufactured, produced, distilled, developed, or used in the process of manufacture, denatured, redistilled, recovered, reused, stored in bond, stored for hire, or sold at wholesale, by a person without a permit as required by the provisions of this act, and any place in which a person holding a permit issued under the provisions of this act, shall violate any provision of this act, or any rule or regulation of the board, or any provisions of the act to which this is a supplement, is hereby declared to be a common nuisance, and, upon such violation, the permit, if any, held by such person, shall be automatically suspended. Any nuisance, as in this section defined, may be abated under the provisions of the act of the twenty-seventh day of March, one thousand nine hundred and twenty-three, Pamphlet Laws thirty-four, to which is a supplement. (Id. § 18.)

527. **Sale, Use or Concealment of Withdrawn Alcohol Before Being Denatured—Recovery or Reuse of Alcohol.**—Whenever any person or persons withdraw or remove any alcohol or alcoholic liquid, which has not been denatured, from any distillery, industrial alcohol plant, denaturing plant, dealcoholizing plant, brewery, or bonded warehouse, for the purpose of denaturing the same, it shall be unlawful for any such person or persons to use, sell or conceal or attempt to use, sell or conceal, or be concerned in the sale, use or concealment of any such alcohol or alcoholic liquid, unless, before such sale or use, the said alcohol or alcoholic liquid shall be denatured by adding thereto denaturing material or materials or admixtures thereof which render it unfit for beverage purposes.

It shall be unlawful for any person or persons to recover and reuse, or attempt to recover and reuse, by redistillation, or by any other process or means whatsoever, any alcohol or alcoholic liquid from denatured alcohol, or to knowingly use, sell, conceal, or otherwise dispose of alcohol or alcoholic liquid so recovered or redistilled. (Id. § 19.)

528. **Violations—Misdemeanor—Penalty.**—Any person or persons, who knowingly violate any of the provisions of this act, or any person who shall violate any of the conditions of any permit, or who shall falsify any record or report required by this act to be kept, or who shall violate any rule or regulation of the board, or who shall interfere with, hinder or obstruct any inspection authorized by this act, or prevent any member of the board, or any person duly authorized and designated by the board, from entering any place which such member of the board, or such person, is authorized by this act to enter for the purpose of making an inspection, or who shall violate any other provision of this act, shall be guilty of a misdemeanor, and, upon conviction thereof, shall be sentenced to pay a fine of not less than one hundred dollars ($100.00) nor more than five thousand dollars ($5,000.00), or undergo imprisonment of not more than three (3) years, or both, at the discretion of the court. (Id. § 20.)

529. **No Property Rights in Alcohol Unlawfully Held.**—No property rights shall exist in any alcohol or alcoholic liquid manufactured, produced, distilled, developed, or used in the process of manufacture, denatured, redistilled, recovered, reused, held in bond, held in storage as bailee for hire, sold at wholesale, or transported for hire, in violation of any of the provisions of this act, and the same shall be deemed contraband and forthwith destroyed. No alcohol or alcoholic liquid in the custody of any officer of the law shall be seized or taken from him on any writ of replevin, injunction or other like process. (Id. § 21.)

529a. **Pleadings Need Not Negative Exceptions.**—It shall be unnecessary in any complaint, information, indictment, or other pleadings, to negative any provision or exception contained in this act. (Id. § 22.)

529b. **Witnesses.**—No person shall be excused on the ground that it may tend to incriminate him or subject him to a penalty or forfeiture, from attending and testifying, or producing books, papers, documents and other evidence, in obedience to a subpœna of any court, in any suit or proceeding, based upon or growing out of any alleged violation of this act, but no natural person shall be prosecuted or subjected to any penalty or forfeiture for or on account of any

transaction, matter or thing as to which, in obedience to a subpœna and under oath, he may so testify or produce evidence, but no person shall be exempt from prosecution and punishment for perjury committed in so testifying. (Id. § 23.)

(Id. § 21535a-2.)

600. But in any case where any such person has actual notice that the type of such weight or measure or weighing and measuring device has not in fact been approved, when such approval is required by the provisions of this act, it shall be unlawful and a violation of the provisions of this act, for such person thereafter to offer or expose such weight or measure or weighing or measuring device for sale, or to sell it for use in trade or commerce, or use it in trade or commerce. (Id. § 21535a-8.)

607. **Approval of Parts of Weights and Measures.**—In case any person may desire to have the type of a part of a weight or measure or weighing or measuring device separately approved and serialized, and shall apply therefor, and the Bureau of Standards, decides that the part is such that this may properly be done, then such part may be approved and serialized or disapproved as to type, under the same provisions and restrictions as are applied to the approval and serialization or the disapproval of a type of weight or measure or weighing or measuring device by the provisions of this act. (Id. § 21535a-10.)

It shall be unlawful to use in trade or commerce any weight or measure or weighing or measuring device which is marked as described above: Provided, however, that whenever it shall appear to the satisfaction of the Bureau of Standards that any type of weight or measure or weighing or measuring device is such as to render it impracticable to mark it as required by this section, or is of such design and construction that it is obviously not intended for use in trade or commerce, the said bureau shall furnish a certificate to that effect to any manufacturer applying for the same, and such types of weights and measures and weighing and measuring devices need not be marked as required by the provisions of this section. (Id. § 21535a-13.)

611. **Violations of Act; Jurisdiction; Penalties.**—Any person, copartnership, association, or corporation who or which shall violate any provision of this act shall, upon conviction thereof in a summary proceeding before any alderman, magistrate, or justice of the peace of the proper county or city, be punished for the first offense by a fine of not more than twenty-five dollars; and, upon conviction of the second offense, by a fine of not less than twenty-five dollars nor more than one hundred dollars; and, upon conviction for the third and each subsequent offense, by a fine of not less than one hundred dollars nor more than two hundred and fifty dollars. RHODE ISLAND.*

PART I.

General Food and Drug Law.

1. **Penalty for the Selling or Offering for Sale, Any Drug or Article of Food, Adulterated or Misbranded.**—It shall be unlawful for any person, firm or corporation, as principal, or by a servant, or agent, to manufacture, sell, or offer for sale within this State, any drug, or article of food which is adulterated or misbranded within the meaning of this chapter, and any person, firm or corporation, as principal or by a servant, or agent, violating any of the provisions of this chapter, shall be guilty of a misdemeanor, and shall, upon conviction, be punished for the first offense by a fine not exceeding fifty dollars, for the second offense by a fine not exceeding one hundred dollars, and for the third and each subsequent offense by a fine of not exceeding two hundred dollars, or imprisonment for one year: Provided, that no article shall be deemed misbranded or adulterated within the provisions of this chapter when intended for export to any foreign country and prepared or packed according to the specifications or directions of the foreign purchaser, when no substance is used in the preparation or packing thereof, in conflict with the laws of the foreign country to which said article is intended to be shipped; but if such article shall be in fact sold or offered for sale for domestic use or consumption, then this proviso shall not exempt said article from the operation of any of the other provisions of this chapter. (G. L. 1923, c. 168, § 1.)

2. **Terms "Drug" and "Food," What to Include.**—The term "drug" as used in this chapter shall include all medicines and preparations recognized in the United States Pharmacopœia or National Formulary for internal or external use and any substance or mixture of substances intended to be used for the cure, mitigation, or prevention of disease of either man or other animals. The term "food" as used herein shall include all articles whether simple, mixed, or compound, used for food, drink, confectionery or condiment by man or other animals. When the substance answers both descriptions, a "food" and a "drug," as above defined, the purpose for which it was manufactured, sold or offered for sale as the case may be, shall determine its character. (Id. § 2.)

3. **Drug Deemed to be Adulterated, When.**—A drug shall be deemed to be adulterated:

First. If, when sold under or by a name recognized in the United States Pharmacopœia or National Formulary, it differs from the standard of strength, quality, or purity prescribed therein.

Second. If its strength, quality, or purity falls below the professed standard under which it is sold: Provided, that in no case shall a drug be deemed to be adulterated, as differing from such professed standard, when the variation is caused by the evaporation of any volatile ingredient or by other changes beyond control, happening after the manufacture of the same: Provided, that due care be taken to preserve its integrity. (Id. § 3.)

4. **Food Deemed to be Adulterated, When.**—Food shall be deemed to be adulterated:

First—If any substance has been mixed and packed with it so as to reduce or lower or injuriously affect its quality, strength, or purity.

Second—If any substance has been substituted wholly or in part for the article.

Third—If any valuable constituent of the article has been wholly or in part abstracted.

*CITATIONS: "G. L. 1923" refers to the General Laws of Rhode Island, revision of 1923, published by authority of Chapter 1928, Public Laws of 1920. "P. L." refers to the public laws of the year cited.

Fourth—If it is mixed, colored, powdered, coated, stained, or put up in a manner whereby damage or inferiority is concealed.

Fifth—If it contains any added poisonous or other added ingredient which may render such article injurious to health: Provided, that when in the preparation of food products for shipment they are preserved by any external application applied in such manner that the preservative is necessarily removed mechanically or by maceration in water, or otherwise, and directions for the removal of said preservative shall be printed on the covering of the package, the provisions of this chapter shall be construed as applying only when said products are ready for consumption.

Sixth—If it consists in whole or in part of a filthy, decomposed, or putrid animal or vegetable substance, or any portion of an animal unfit for food, whether manufactured or not, or if it is the product of a diseased animal, or one that has died otherwise than by slaughter. (Id. § 4.)

5. Confectionery Deemed to be Adulterated, When.—Confectionery shall also be deemed to be adulterated if it contains terra alba, barytes, talc, chrome yellow, or other mineral substances or poisonous colors or flavors or other ingredients deleterious or detrimental to health or any vinous, malt, or spirituous liquor or compound or narcotic drug. (Id. § 5.)

6. Drug or Article of Food Deemed to be Misbranded, When.—A drug or an article of food, or an article which enters into the composition of food, shall be deemed to be misbranded:

First—If the package containing it, or the label on such package, shall bear any statement, design, or device regarding such article, or the ingredients or substances contained therein, which shall be false, deceptive or misleading in any particular, or if the same is falsely branded as to the State, Territory or country in which it is manufactured or produced.

Second—If the package contains a proprietary or patent medicine, or a proprietary or patent food, and the label fails to bear a statement of the quantity or the proportion of any alcohol, morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate, or acetanilide, or any derivative or preparation of any such substances contained therein: Provided, that the provisions of this section shall not apply to the sale and distribution of such proprietary or patent medicines or proprietary or patent foods as were in the possession of any dealer within this State on the twenty-sixth day of May, nineteen hundred and eight.

For the purposes of this chapter an article shall also be deemed to be misbranded:

In the case of drugs:

First—If it be an imitation of or offered for sale under the name of another article.

Second—If its package or label shall bear or contain any statement, design, or device regarding the curative or therapeutic effect of such article or any of the ingredients or substances contained therein, which is false, deceptive or misleading.

In the case of food:

First—If it be an imitation of or offered for sale under the distinctive name of another article.

Second—If in package form, the quantity of the contents be not plainly and conspicuously marked on the outside of the package in terms of weight, measure or numerical count: Provided, however, that reasonable variations shall be permitted and tolerances and also exemptions as to small packages shall be established by rules and regulations made in accordance with the provisions of section twelve of this chapter. (Id. § 6.)

7. Dealer Establishing Guaranty Not to be Convicted.—No dealer shall be convicted under the provisions of this chapter, when he can establish a guaranty, signed by the wholesaler, jobber, manufacturer, or other party residing in the United States, from whom he purchases such articles, to the effect that the same is not adulterated or misbranded within the meaning of the food and drugs act of the United States, approved June thirty, nineteen hundred and six, or of this chapter. Said guaranty, to afford protection, shall contain the name and address of the party or parties making the sale of such articles to such dealer, and in such case said party or parties shall be amenable to the prosecutions, fines, and other penalties which would attach, in due course, to the dealer under the provisions of this chapter. (Id. § 7.)

8. Commissioner or Agent to be Furnished With Sample of Any Drug or Article of Food, Upon Application to Person Offering Same for Sale.—Every person offering for or exposing for sale or delivering to a purchaser any drug or article of food included in the provisions of this chapter shall furnish to any commissioner, or other officer or agent appointed hereunder, who shall apply to him for the purpose and shall tender to him the value of the same, a sample or samples, of any drug or article of food which is in his possession, sufficient, after division into two equal or nearly equal parts, for the purpose of analysis. The official or agent thus taking said sample or samples shall then and there in the presence of the person for whom he obtained it, unless said person refuse to witness the operation, divide said sample or samples into two equal or nearly equal parts or specimens, and seal and label the same, said label to state the kind of food or drugs, the date of such taking, and, if obtainable, the name of the person from whom they were taken; also, if obtainable, the name or names of the parties, if there be any, whom said person represents. Said official or agent shall then and there deliver one of said specimens to the person from whom the same were taken. If any such sample or samples so taken shall appear to be adulterated within the meaning of this chapter, notice in writing of the fact of such adulteration, containing a description of such sample or samples, shall forthwith be given by mail or otherwise, directed to the person from whom the same were obtained, to the address given by him at the time such sample or samples were taken, before any prosecution shall be instituted thereon: Provided, however, that if the person from whom such sample or samples are taken shall omit or refuse to give his name or address, such notice shall not be required. Whoever hinders, obstructs, or in any way interferes with any commissioner or other officer or agent appointed hereunder, in the performance of his duty, shall, upon conviction, be fined a sum not exceeding one hundred dollars. (Id. § 8.)

9. Article of Food or Any Drug Adulterated or Misbranded May be Seized and Destroyed; Sample May be Retained by Owner.—Any article of food or any drug that is adulterated or misbranded within the meaning of this chapter or which is decayed, diseased, unwholesome or unfit for food may be seized and destroyed by any commissioner or other officer or agent appointed hereunder in the performance of his duty. All such seizures shall be at once reported to said Board of Food and Drug Commissioners by any commissioner or other officer or agent making such seizures, and a complete record of such seizure shall be kept in the office of said board: Provided, however, that any such commissioner or other officer or agent making such seizure shall upon request of the owner of any such article or upon the request of said owner's agent or servant, permit such owner, his agent or servant, to retain a sample of any such article, and such commissioner or other officer or agent shall retain such article for the period of two hours for examination by such person or persons as said owner or his agent or servant may select. Said commissioner or other officer or agent at the expiration of two hours after seizure of any such article shall treat such article in a manner to render it impossible to use such article for human consumption: Provided, however, that said Board of Food and Drug Commissioners may in its discretion order said article so seized to be sold and the proceeds thereof, less the legal costs and charges, shall be paid into the treasury of the State; and provided further, however, that upon payment of the costs of such proceedings, and the execution and delivery of a good and sufficient bond payable to the State to the effect that such articles or drugs shall not be sold or otherwise used or disposed of contrary to the provisions of this chapter, said Board of Food and Drug Commissioners may direct that such articles or drugs be delivered to the owner thereof. Any owner of any articles of food or drugs, so seized may demand trial by jury of any issue of fact in such case and all such proceedings shall be at the suit of and in the name of the State. (Id. § 9.)

10. Canned Articles of Food Prepared From Dried Products, How to be Labeled.—All canned articles of food which have been prepared from dried products and have been soaked before canning shall be plainly marked by a brand or label having on its face the word "Soaked," in letters of legible type and not smaller than eight point (Brevier) caps. (Id. § 10.)

11. Board of Food and Drug Commissioners, How Constituted.—There shall be a Board of Food and Drug Commissioners, consisting of three members, who shall hold office for the term of their appointment, and until their successors, respectively, shall be elected and qualified to act.

At the January session of the General Assembly in any year in which a vacancy occurs in said board, the Governor, with the advice and consent of the Sen-

ate, shall appoint a person to be a member of said board to succeed the member whose term of office shall next expire and the person so appointed shall hold his office until the first day of February in the fifth year after his appointment. Any vacancy which may occur in said board when the Senate is not in session shall be filled by the Governor until the next session thereof, when he shall, with the advice and consent of the Senate, appoint some person to fill such vacancy for the remainder of the term. (Id. § 11.)

12. Board to Adopt Rules for Enforcements of This Chapter; to Have Office in State House; Officers, Etc.—It shall be the duty of said Board of Food and Drug Commissioners to enforce the provisions of this chapter and to prosecute every person, firm or corporation violating the same and for this purpose said board may employ experts if necessary. Any member of said commission may make complaints for any violation of the provisons of this chapter and such commissioner making such complaint shall not be required to give surety for the payment of costs. That for the purposes of this section an article shall also be deemed to be misbranded:

In the case of drugs:

First. If it be an imitation of or offered for sale under the name of another article.

Second. If the contents of the package as originally put up shall have been removed, in whole or in part, and other contents shall have been placed in such package, or if the package fail to bear a statement on the label of the quantity or proportion of any alcohol, morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate, acetanilide, or any derivative or preparation of any such substances contained therein. Provided, that the package contains more than two grains of opium, or more than one-quarter grain of morphine, or more than one-quarter grain of heroin, or more than ten grains of chloral hydrate in one fluid ounce, or, if a solid preparation, in one avoirdupois ounce: Provided, further, that nothing in this paragraph shall be construed to apply to the filling of written prescriptions, furnished by regular licensed practicing physicians, and kept on file by druggists as required by law, or as to such preparations as are specified and recognized by the United States Pharmacopœia or National Formulary or United States Dispensatory, which are in accordance therewith.

Provided, that an article of food which does not contain any added poisonous or deleterious ingredients shall not be deemed to be adulterated or misbranded in the following cases:

First.
